PROFESSIONAL SUMMARY

Full Stack .NET Developer with over a year of professional experience building and supporting production web applications with ASP.NET Core, Angular, Entity Framework Core, and SQL Server. Works remotely for a UK-based company, collaborating directly with clients from requirements through release and post-deployment support. Built ServiCore, a multi-tenant platform with JWT authentication, policy-based authorization, and SignalR real-time notifications. Bachelor of Computer Science, GPA 3.52/4.0, with honors.

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer May 2025 – Present

ARID Scientific Ltd London, United Kingdom (Remote)

- Collaborate directly with clients to gather requirements, implement features, troubleshoot issues, and deliver production releases.
- Develop and maintain full-stack web applications using ASP.NET Core, ASP.NET MVC, Angular, Entity Framework Core, and SQL Server.
- Build secure REST APIs with JWT authentication, ASP.NET Identity, and role-based authorization.
- Design relational databases with Entity Framework Core and SQL Server, and provide post-deployment support and enhancements.

SKILLS

Backend
ASP.NET Core, ASP.NET Web API, ASP.NET MVC (Razor Views), Entity Framework Core, LINQ, ASP.NET Identity, JWT, SignalR, REST APIs

Languages
C#, TypeScript, JavaScript, SQL

Cloud & DevOps
Microsoft Azure, Azure DevOps, CI/CD, Vercel, MonsterASP

AI-Assisted Development
GitHub Copilot, Cursor, ChatGPT, Claude

Frontend
Angular, Blazor, HTML5, CSS3, Bootstrap, Tailwind CSS

Database Management
SQL Server, MongoDB

Tools
Git, GitHub, Visual Studio, VS Code, Postman, Swagger

Practices
Agile/Scrum, SOLID Principles

PROJECTS

ServiCore – Multi-Tenant Service Management Platform September 2026 – October 2026

ASP.NET Core 8, Angular 19, SQL Server, Entity Framework Core, ASP.NET Identity, JWT, SignalR, Tailwind CSS

Backend repo | Frontend repo | Live demo

- Designed and deployed a multi-tenant customer support platform with organization-scoped data isolation and organization-specific roles for Owners, Managers, and Agents.
- Built secure REST APIs with ASP.NET Core Identity, JWT, policy-based authorization, and tenant-aware access control.
- Implemented the ticket lifecycle, including team and agent assignment and customer workflows.
- Developed the Angular 19 frontend with role-aware navigation, organization switching, real-time notifications, and reporting dashboards for customer and staff workflows; deployed on Vercel and MonsterASP with SQL Server.

MasjidStory – Full Stack Web Platform April 2025 – June 2025

ASP.NET Core 8, Angular 19, SQL Server, Entity Framework Core, JWT, ASP.NET Identity, Leaflet

Backend repo | Frontend repo | Live demo

- Developed and deployed a platform for discovering mosques, sharing stories, managing communities, and organizing events.
- Built the REST API with JWT authentication and role-based authorization; implemented multilingual support and interactive maps with Leaflet.

A3lanly – Advertisement Management Platform June 2025 – July 2025

ASP.NET MVC, Razor Views, Entity Framework, SQL Server, ASP.NET Identity

GitHub repo | Live demo

- Built an AdSense-inspired advertisement platform covering ad publishing, website registration, and embed-code generation.
- Implemented click and impression tracking to measure ad performance, and maintained the application based on client feedback.

EDUCATION

Professional Development and BI-infused CRM Program (9 months) October 2024 – July 2025

Information Technology Institute (ITI), Aswan

- 1070+ hours of project-based training in Full-Stack .NET development (ASP.NET Core, Blazor, Angular), Microsoft Dynamics 365 CRM, Power Platform, Business Intelligence, and Azure.

Bachelor of Computer Science September 2020 – June 2024

Computer Science Department,Faculty of Computers and Information, Luxor University

GPA 3.52/4.0 (with honors, ranked 3rd)

LANGUAGES

Arabic — Native

English — Professional Working Proficiency
