PROFILE

Dynamic and results-driven Full Stack .NET Developer with hands-on experience building and deploying production web applications using ASP.NET Core, ASP.NET MVC, Angular, Entity Framework Core, and SQL Server. Experienced in developing secure RESTful APIs, implementing JWT authentication and role-based authorization, and delivering real client projects from requirements to deployment. Passionate about writing clean, maintainable code, continuously improving technical skills, and contributing to high-quality software solutions.

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer May 2025 – Present

ARID Scientific Ltd London, United Kingdom (Remote – Contract)

- Developed, deployed, and maintained production-ready full-stack web applications using ASP.NET Core, ASP.NET MVC, Angular, Entity Framework Core, and SQL Server.
- Built secure RESTful APIs with JWT authentication, ASP.NET Identity, and role-based authorization.
- Collaborated directly with clients to gather requirements, implement features, and resolve technical issues.
- Designed and integrated relational databases using Entity Framework Core and SQL Server.
- Deployed and maintained production applications while providing post-deployment support and feature enhancements.
- Worked with Git for version control and project collaboration.

SKILLS

Languages
- C#
- JavaScript
- TypeScript
- SQL

Database Management
- SQL Server
- MongoDB

Tools
- Git
- GitHub
- Visual Studio
- VS Code
- Postman
- Swagger

Cloud & DevOps
Microsoft Azure, Azure DevOps, CI/CD Pipelines

Backend
- ASP.NET Core
- ASP.NET MVC
- ASP.NET Web API
- Entity Framework Core
- LINQ
- ASP.NET Identity
- JWT Authentication

Frontend
- Angular
- HTML5
- CSS3
- Bootstrap
- Tailwind css

Development Methodologies
Agile (Scrum), SOLID Principles

PROJECTS

MasjidStory – Full Stack Web Platform April 2025 – June 2025
ASP.NET Core 8, Angular 19, SQL Server, Entity Framework Core, JWT, ASP.NET Identity, Leaflet, Bootstrap

- Developed a production-ready platform for discovering mosques, sharing stories, managing communities, and organizing events.
- Designed secure RESTful APIs with JWT authentication and role-based authorization.
- Implemented multilingual support and interactive map functionality using Leaflet.
- Collaborated with the client to deliver features and deploy the application.

A3lanly – Advertisement Management Platform(Inspired by Google AdSense) June 2025 – July 2025
ASP.NET MVC, Razor Views, Entity Framework, SQL Server, ASP.NET Identity

- Built an advertisement management platform inspired by Google AdSense.
- Implemented advertisement publishing, website registration, and embed code generation.
- Developed click and impression tracking to monitor advertisement performance.
- Deployed the application and maintained it based on client feedback.

PointPay Rewards & Loyalty SaaS Platform (ITI Graduation Project) January 2025 – June 2025
ASP.NET Core, Entity Framework, SQL Server

- Contributed to the development of a cloud-based customer rewards platform.
- Implemented assigned features within a collaborative Agile team.
- Worked with REST APIs and SQL Server as part of the backend development.

EDUCATION

Professional Development and BI-infused CRM Program(9-months) October 2024 – July 2025
Information Technology Institute (ITI), Aswan, Egypt

- Completed an intensive, project-based 1070+ hour training focused on Full-Stack .NET Development, Microsoft Dynamics 365 CRM, Power Platform, Business Intelligence, and Cloud Solutions (Azure).
- Developed full-stack applications with ASP.NET Core, Blazor, Angular, and Azure.
- Gained certifications and hands-on experience aligned with top industry standards.

Bachelor of Computer Science September 2020 – June 2024
Computer Science Department, Faculty of Computers And Information,Luxor University
GPA 3.52/4.0 (with honors,ranked 3rd)

- Completed a four-year degree in software development, data structures, algorithms, and computer systems.
- Gained strong technical foundations in object-oriented programming, databases, and web development.
- Completed academic projects utilizing C#, SQL Server, and web technologies.
